ROE Trend (Results & Forecast)

Measures

Profit Growth

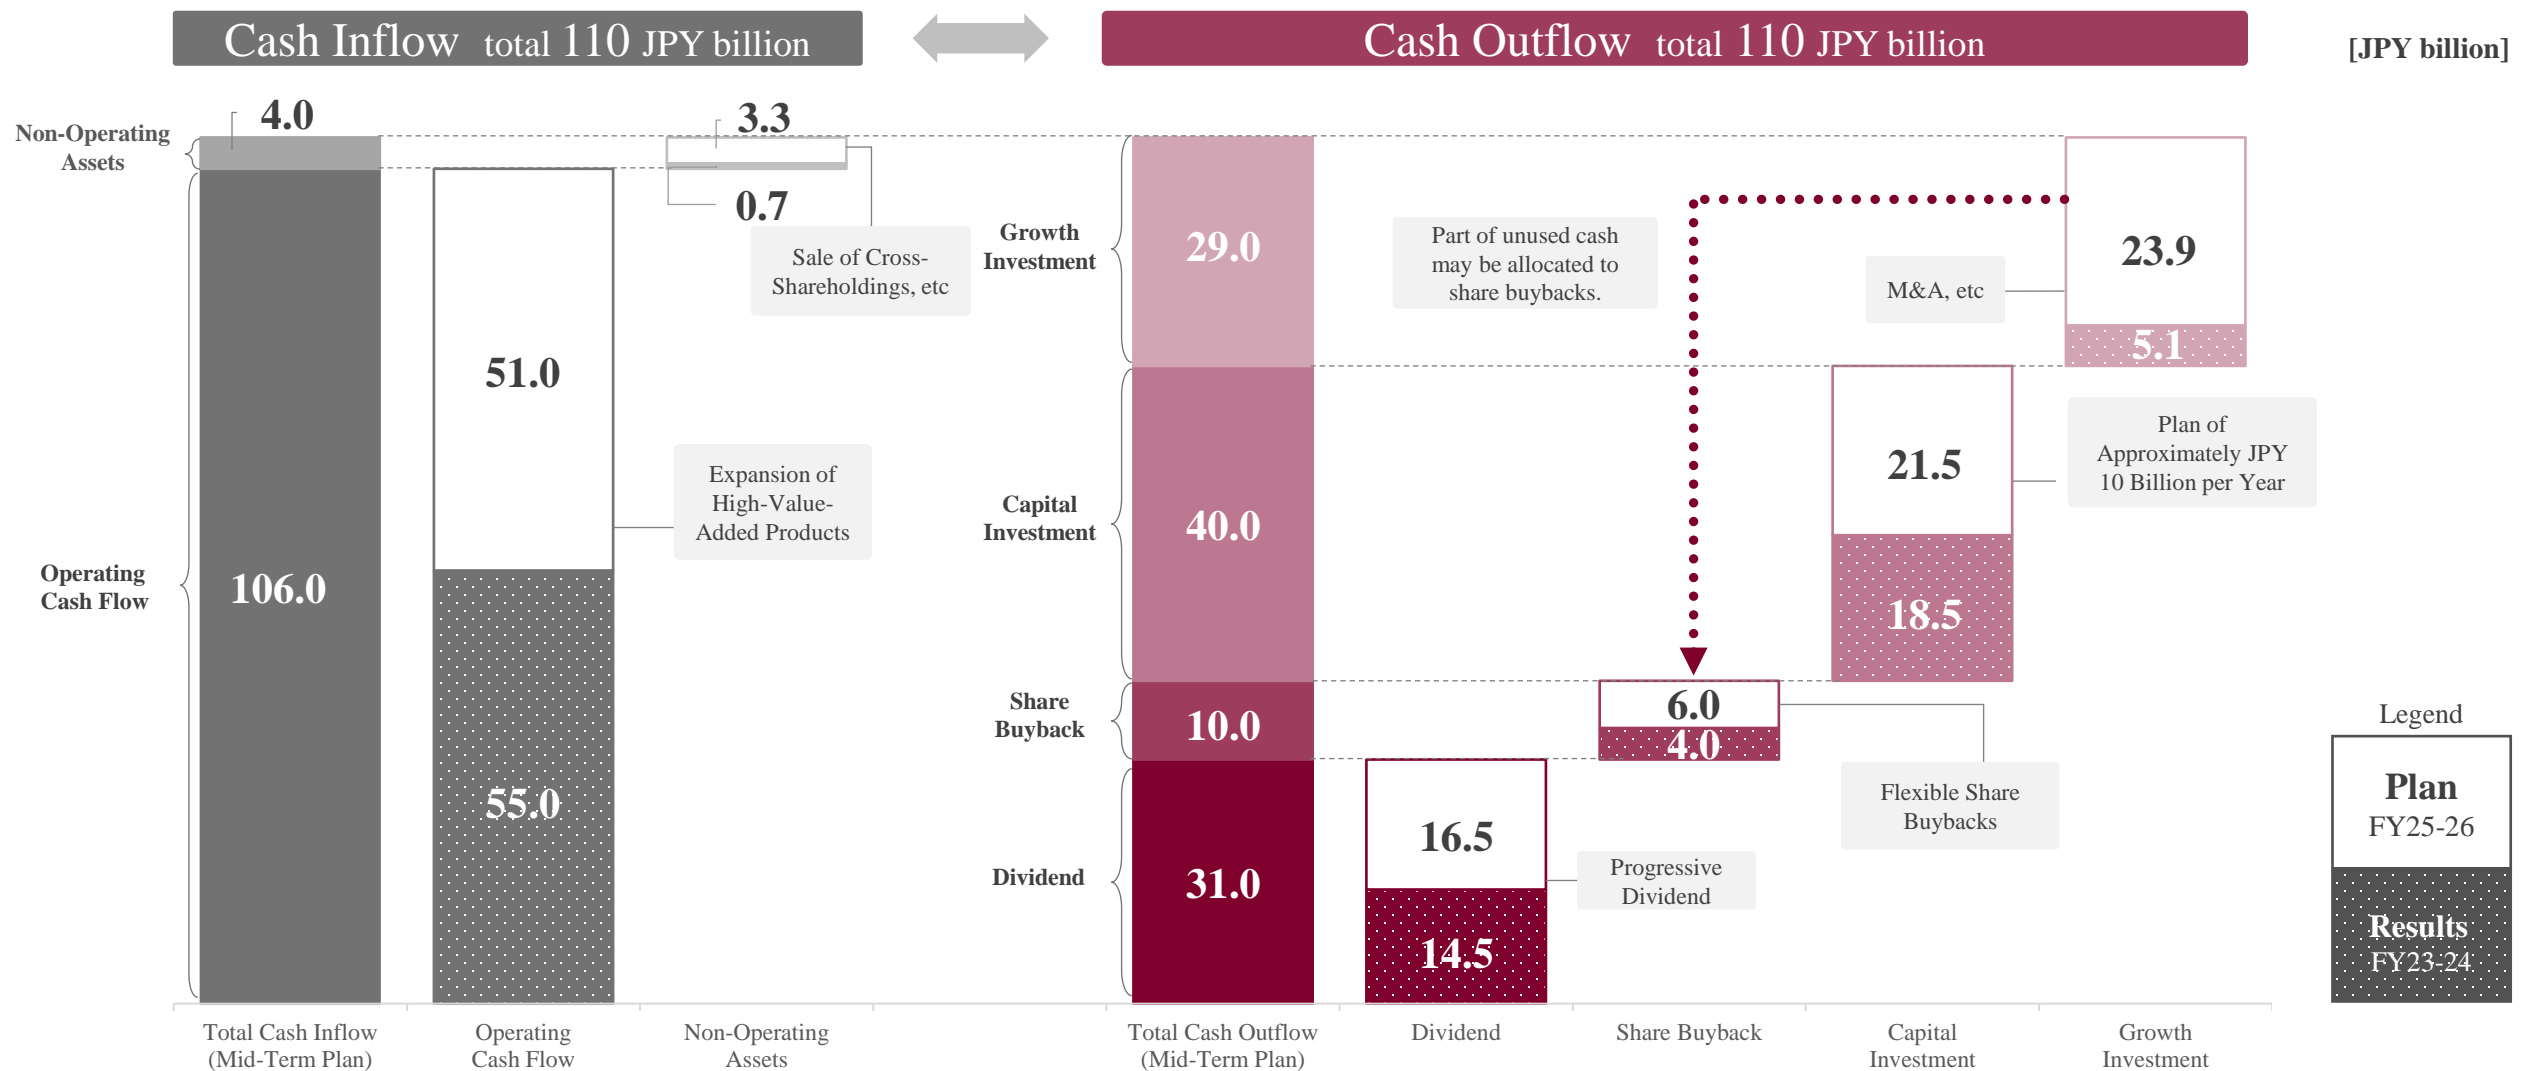

Strengthening Profitability Structure	Improving profitability by focusing on high value-added products and reviewing unprofitable businesses and products.
Growth Investment	Enhancing disciplined growth investments aimed at future profit expansion.
Productivity Improvement	Improving operational efficiency and productivity through the use of digital transformation (DX).

Improving Capital Efficiency

Asset Efficiency Enhancement	Improving asset efficiency through inventory optimization, reduction of accounts receivable, and management of group companies using ROIC.
Reduction of Cross-Shareholdings	Reducing cross-shareholdings, with proceeds used for growth investments, capital expenditures, and shareholder returns.
Optimization of Equity Capital	Pursuing an optimal and flexible capital structure that supports both growth and shareholder returns while maintaining financial discipline.
Enhanced Shareholder Returns	We will continue a progressive dividend policy while maintaining a shareholder return-focused payout ratio, aiming to return over 10 billion yen through share buybacks under the current plan.

ROE target in the current plan has been revised from “around 10%” to “over 10%”, reflecting profit growth and capital efficiency.

7. Capital Policy and Cash Allocation (FY23–26)

*A portion of treasury shares will also be utilized for executive and employee compensation

Over the next two years (FY25–26), we plan to expand both shareholder returns and growth investments

8. Capital Policy and Dividends Per Share

Continue the progressive dividend policy
Payout ratio: 47.3% (FY2024)

*The General Meeting of Shareholders officially scheduled for June will determine dividends for FY2024. Dividends for FY2025 are current forecast values

16 consecutive years of dividend increases, and no dividend cuts for 27 consecutive years
(as of FY2025)
