## Notice Concerning Revision of Dividend Forecast (Increase)

Aica Kogyo Co., Ltd. (the “Company”) hereby announces that, at a meeting of the Board of Directors held today, it has resolved to revise its dividend forecast for the fiscal year ending March 31, 2026, as follows.

### 1. Reason for the Revision

The Company’s capital policy aims to enhance corporate value by optimizing group capital allocation while maintaining an appropriate balance among shareholder returns, capital efficiency, and financial soundness.

With respect to shareholder returns, the Company pays dividends after taking into account consolidated performance for each fiscal period, with the aim of returning profits to shareholders while achieving sustainable growth. Under its current medium-term business plan, “Value Creation 3000 & 300,” the Company’s basic policy is to continue a progressive dividend policy without dividend reductions.

Regarding dividends for the fiscal year ending March 31, 2026, in light of the Company’s strong performance, including the fact that its consolidated cumulative results for the third quarter recorded all-time highs in net sales, operating profit, ordinary profit, and profit attributable to owners of the parent, the Company has comprehensively considered these factors and resolved to revise the annual dividend forecast. As a result, its annual dividend is increased by ¥2 per share from the previous forecast (an increase of ¥12 per share from the previous fiscal year’s actual dividend), to ¥138 per share.

Going forward, the Company will continue to enhance shareholder returns and remain committed to further increasing corporate value.
